

Coursera Project Network – Various Projects [12 nos.]

All projects under the Coursera project network are explicit **closed source code / not sharable license** so only the project details (as listed in Coursera website) and the completion certificate is listed here.

1

Guided Project About: Build an Anomaly Detection Model using PyCaret.

Guided project Info:

<https://www.coursera.org/projects/build-an-anomaly-detection-model-using-pycaret>

Guided Project Certificate: <https://www.coursera.org/verify/8SS2L4GT4V8M>

2

Guided Project About: Unsupervised Machine Learning for Customer Market Segmentation.

Guided project Info:

<https://www.coursera.org/projects/machine-learning-for-customer-segmentation>

Guided Project Certificate: <https://coursera.org/verify/8TRFE4TKXCE3>

3

Guided Project About: Cleaning and Exploring Big Data using PySpark.

Guided Project Certificate: <https://coursera.org/verify/9MYPTY58LYFR>

4

Guided Project About: Machine Learning - Anomaly Detection via PyCaret.

Guided project Info: <https://www.coursera.org/projects/anomaly-detection>

Guided Project Certificate: <https://coursera.org/verify/ENHA9YHTJGEF>

5

Guided Project About: AI-Powered Chest Disease Detection and Classification.

Guided project Info:

<https://www.coursera.org/projects/ai-powered-chest-disease-detection-and-classification>

Guided Project Certificate: <https://coursera.org/verify/F7WSQCFZKPG8>

6

Guided Project About: Configuring Python Extension Pack with Visual Studio Code.

Guided project Info:

<https://www.coursera.org/projects/configure-python-extension-pack-visual-studio-code>

Guided Project Certificate: <https://coursera.org/verify/FCWYLQKE62D8>

7

Guided Project About: TensorFlow for AI: Get to Know Tensorflow.

Guided project Info: <https://www.coursera.org/projects/tensorflow-for-ai-get-to-know-tensorflow>

Guided Project Certificate: <https://coursera.org/verify/LGYKKYSBPSV3>

8

Guided Project About: Docker for absolute beginners.

Guided project Info: <https://www.coursera.org/projects/docker-for-absolute-beginners>

Guided Project Certificate: <https://coursera.org/verify/PFHU5F3834H9>

9

Guided Project About: Introduction to Github and Visual Studio Code.

Guided project Info: <https://www.coursera.org/projects/github-visual-studio-code-desktop>

Guided Project Certificate: <https://coursera.org/verify/PQU8K4PGLCCR>

10

Guided Project About: Prepare, Clean, Transform, and Load Data using Power BI.

Guided project Info:

<https://www.coursera.org/projects/prepare-clean-transform-and-load-data-using-powerbi>

Guided Project Certificate: <https://coursera.org/verify/REPVDV8Y8PBH>

11

Guided Project About: Create Interactive Dashboards with Streamlit and Python.

Guided project Info: <https://www.coursera.org/projects/interactive-dashboards-streamlit-python>

Guided Project Certificate: <https://coursera.org/verify/TGUQNKY7XRHS>

12

Guided Project About: Learn to Code using C# on VS Code.

Guided project Info: <https://www.coursera.org/projects/learn-code-csharp-vscode>

Guided Project Certificate: <https://coursera.org/verify/ZBGQ7XNP62S6>
